Art Unit: 2174

DETAILED ACTION

1. This application has been examined.

2. This application is a Reissue of S.N. 09/ 353305, filed 7/13/99, which is a continuation of S.N. 08/772650 filed 12/23/96, now U.S. Patent 5966126.

Election/Restrictions

- 3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - Claims 1-33, 40-41, drawn to a method for graphically representing an output arrangement of an operation, classified in class 715, subclass 771.
 - II. Claims 34-39, drawn to a method of ranking members of a set, classified in class 715, subclass 855.
- 4. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as graphically representing an output arrangement of an operation. This is separate from invention II, which need not list the ranking in a graphical representation but need only list it textually. See MPEP § 806.05(d).

Application/Control Number: 10/728,743 Page 3

Art Unit: 2174

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

- 6. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
- 7. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
- 8. A telephone call was made to Mr. Steve Hoffberg on 8/5/05 to request an oral election to the above restriction requirement, but did not result in an election being made.
- 9. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 2174

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven P. Sax whose telephone number is (571) 272-4072. The examiner can normally be reached on Monday thru Friday, 8:30 AM - 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kristine Kincaid can be reached on (571) 272-4063. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
